

"For the Love of Dog!"

WATCH FOR SIGNS
OF YOUR PET
OVERHEATING

SYMPTOMS OF OVERHEATING INCLUDE:

- HEAVY PANTING
- EXCESSIVE THIRST
- GLAZED EYES
- VOMITING AND BLOODY DIARRHEA
- BRIGHT OR DARK RED TONGUE, GUMS
- STAGGERING
- ELEVATED BODY TEMPERATURE (104°F AND UP)
- WEAKNESS, COLLAPSE
- INCREASED PULSE AND HEARTBEAT
- SEIZURES
- EXCESSIVE DROOLING
- UNCONSCIOUSNESS

If you think it's hot outside, try wearing a fur coat with no ability to sweat and no shoes to protect your feet! Please use your common sense and do **NOT** bring your dog out to exercise when it's hot outside. Your dog can literally **DIE** and you can be cited under CPC 597(b) for Cruelty to Animals.
